

SRM Legal to offer new Early Case Assessment option through Valora Technologies

SRM chooses Valora “Black Cat” after evaluating industry alternatives

(PR WEB) New York, NY, May 10, 2011 – SRM Legal, providers of end-to-end litigation support and e-Discovery services to Fortune 1000 and AM Law 200 organizations, is pleased to announce it will now offer “Black Cat” an early case assessment service, through a strategic partnership with Valora Technologies, Inc. Through Black Cat, SRM now provides a powerful data analytics tool, which assists SRM clients with large-volume projects that require expedited completion.

“We are thrilled to provide our clients detailed insight regarding the make-up of their document populations,” said Frank Canterino, EVP of Sales and Client Services at SRM Legal. “The addition of Black Cat enables us to offer a customizable solution that is tailored to meet the specific needs of a complex litigation.”

SRM’s use of Valora’s Black Cat data visualization platform allows clients to save time and prioritize their attorney review phase of discovery through the use of state-of-the-art technology and an established project management process. By incorporating Valora’s BlackCat and PowerHouse technologies into its established workflow, SRM ensures an accurate, repeatable process that is documented step-by-step. SRM works closely with Valora to provide the following array of services: NearDuplication; Concept Clustering; Automated Coding; Automated Attorney Review (including Rules-Based and Predictive Coding); Automated Presumptive Privilege Review; E-mail Thread Grouping; Automated Issue Coding; and Outsourced First Pass Attorney Review. Valora’s solutions use proprietary automated intelligence software to populate litigation support databases with two major advantages over traditional methods, reduced cost and increased speed.

With the addition of BlackCat to its services portfolio, SRM is uniquely positioned to assist clients with complex attorney review projects, utilizing their knowledge of internal client infrastructure and through the provision of e-Discovery and computer forensic services.

About SRM Legal:

SRM Legal is a highly trusted and relied-upon expert for end-to-end litigation support services in the NY, NJ, Chicago, Dallas and Washington DC markets. With continual investment in people, process and technology, SRM aims to provide the highest quality services to clients. At SRM Legal, we stay on top of the litigation support industry on behalf of our clients, by researching and testing new technologies, watching for changes in case law and regulations, and following trends in the legal profession. This enables SRM to deliver the best possible quality and expertise to our clients. For more information about SRM Legal, contact us at info@srmlegal.com or visit <http://www.srmlegal.com>

About Valora Technologies, Inc.:
