## **VALORA TECHNOLOGIES NAMED TO INC. 5,000**

*Inc. Magazine names Valora one of the fastest growing privately owned companies in America.*

**Burlington, MA – September 3, 2008** – Valora Technologies, Inc., a leading technology-based services firm specializing in streamlining the legal review process, was ranked as one of America’s fastest growing private companies by Inc. Magazine. The Inc. 5,000, an extension of Inc. magazine’s annual Inc. 500 list, covers both large businesses that do not grow at the pace required to make the Inc. 500, as well as a host of smaller firms that are growing rapidly, like Valora. These entrepreneurial companies are recognized as a key force behind what drives the U.S. economy forward. The 2008 Inc. 5,000 list measures revenue growth from 2004 through 2007. To qualify, companies must be U.S.-based, privately held and independent – not subsidiaries or divisions of other companies – as of December 31, 2007, and have had at least \$200,000 in revenue in 2004, and \$2 million in 2007.

Sandra Serkes, CEO and co-founder of Valora Technologies commented, “Valora is pleased to be recognized by Inc. Magazine this year. We feel well represented among the many entrepreneurial and innovative companies across the nation that Inc. honors each year. We are well positioned for another year of growth and hope to be recognized again as a member of next year’s Inc. 5,000 list once we bring some of our newer capabilities in pre-discovery and content analysis online.” Serkes continued, “Valora is honored to be the 3,786<sup>th</sup> fastest growing company overall and 414<sup>th</sup> in the nation for Business Services companies.”

About Valora:

Valora Technologies, a leading technology-based services firm specializing in streamlining document analysis and classification for the legal review process, has analyzed, tagged and managed over 200 million electronic and paper documents for its clients. The company serves law firms, corporations, government agencies and litigation support providers throughout the world. Valora's services are used to reduce the cost, complexity and time associated with e-discovery, paper discovery and document review.
